

Options for Online Instruction

Faculty need to plan for and then deliver instruction online in the upcoming weeks. The chart below presents some commonly used in-class instructional methods, options for moving them online using university supported tools, and links to OIT resources for more information.

Instructional Method	Options for Online Delivery	Details and Directions
Lecture	<ul style="list-style-type: none"> Record in Zoom and upload to Canvas Studio. Place link to lecture video in the Canvas course site. 	Creating Online Lectures with Zoom Getting Started with Zoom Canvas Studio
Interactive Lecture (e.g., with a lot of discussion; lecture using clickers or apps for student polls)	<ul style="list-style-type: none"> Live lecture in Zoom with students participating in real-time. Zoom includes polling features as well as breakout rooms for student groups. Be sure to record your live lecture and post so students can review key concepts and important information. Remember that live (synchronous) sessions must be held during the regular class meeting times, as listed in the timetable. <ul style="list-style-type: none"> * It is also important to remember that not all students have access to high speed internet connections from home. Consider access issues when deciding to deliver a live course session. Students may also live in time-zones other than Eastern Standard so if you have a live session, remind them that the online meeting time is EST.
